Dahlias, Gladioli, Shrubs, Roses and
Old Fashioned Hardy Perennials
In a border planting paralleling the property line, an individual Iris garden bed, or planted in variety with other Perennials, we recommend these beautiful and colorful varieties.

Collection of 3 as above, $ .75
Collection of 6 as above, 1.35
Collection of 12 as above, 2.60
In Appreciation

In issuing this new catalogue for the Spring of 1927 I take great pleasure in thanking my many friends for their generous patronage in the past, and I hope to merit a continuance of their patronage.

General Information

I AM always glad to welcome visitors to my gardens who are interested in hardy plants and flowers. My gardens are located on the improved Ridge Road, eight miles from Rochester, one mile west of Webster Village on main highway. Rochester and Sodus Bay car stop 34 is directly in front of the place.

GUARANTEE—If I hope to retain trade, I can send only such stock as is true to name, first-class quality and in good condition when it leaves my place. Since I have no control over stock after it leaves my place, I cannot assume responsibility for failures due to improper planting or neglect after the plants have left my hands. I guarantee safe arrival of all stock sent by express. I also guarantee all stock true to name, and in a healthy growing condition when it leaves my hands. Any stock which proves otherwise will be gladly replaced or the price paid therefor refunded. I never substitute inferior varieties for those ordered, but should a variety ordered be sold out, I will fill the order with a similar or better variety, correctly labeled, unless instructions to the contrary are given in the order.

ORDER EARLY—The prices quoted in this list are as low as is consistent with the high quality of stock we send out. On account of the extreme shortage of some varieties it is very important to order early. Our stock of some of the choicest varieties is limited and it is often impossible to secure them late in the season.

IMPORTANT—When ordering, please write your name, postoffice, county and state plainly and give your nearest express office address, if it is different from your postoffice address.

CUT FLOWERS—During the blooming season we can generally supply cut flowers of Iris, Peonies, Gladioli, Dahlias and other hardy plants.

Kindly send me the names of your flower loving friends. I shall be glad to send them copies of my catalogue and will repay you by including extras with your order.

Make all remittances payable to

N. A. HALLAUER, WEBSTER, N. Y.
DAHLIAS

CULTURE — The dahlia will grow in any good garden soil. A sandy or gravelly soil which need not be very rich suits them best. It should be worked deep and well prepared. Large quantities of manure should be avoided as it tends to produce a heavy growth of foliage at the expense of bloom. The roots should be planted 2½ feet apart, the tubers should be laid down flat and covered with four to six inches of soil. They may be planted as soon as frost is over, but in our climate, we have found the last half of the month of June the best time in which to plant them out. During the last of August, when the buds appear, an application of a tablespoonful of nitrate of soda spread about the base of the plant will be found beneficial in developing the blooms.

After the plants have been frozen in the Fall, dig carefully and store the roots in a dry, cool cellar for Winter. In the Spring, the roots should be divided, preferably to one eye, before planting.

We send out divided field grown roots only. These are much more satisfactory than the weak, tender, green plants sometimes offered. If stored in a cool place, not too dry, until planted out, every one will grow. They are stored under the best possible conditions here, which preserves them in a healthy, plump condition until planting time. All stunted plants are rogued from our field to insure healthy stock.

Classification of Dahlias

CACTUS DAHLIAS—These are of recent introduction and are becoming very popular. In form they somewhat resemble the Chrysanthemum, the petals are long, narrow, incurved and sometimes twisted, giving them a very graceful appearance. (C) in the list.

DECORATIVE DAHLIAS are the largest flowering of any type. They have long, broad, flat petals. (D) in the list.

SHOW DAHLIAS are the old-fashioned large, round, compact and quilled flowered type. (S) in the list.

PEONY FLOWERED DAHLIAS are the newest type and somewhat resemble the Peony in form. The flowers are generally semi-double, exposing golden yellow disc in the center. They are very beautiful and free-flowering. (P) in the list.

POMPON DAHLIAS are identical in form with show Dahlias, but are small. (Pom.)

Dahlias are sent by parcel post prepaid. Write for prices on large quantities.

ACQUISITION (S)—Beautiful deep lilac. Very large, quilled petals. Each, 35c

A. D. LIVONI (S)—Soft pink, very free. One of the very best for cutting. Each, 25c

GLADIOLI

GLADIOLI are of very easy culture. The bulbs may be planted as early as the ground can be worked and for a succession of bloom every two weeks up to July. The ground should be dug deeply and the bulbs planted 4 to 6 inches apart in the rows and 5 or 6 inches deep. A rich sandy loam soil in full sun suits them best, although they will thrive in any good garden soil.

One bulb of a variety at 1-10th the list price per dozen, prepaid. Write for prices on larger quantity.

ALICE TIPLADY (K)—A grand, large Primulinus of beautiful orange saffron color. Doz., $1.00

IRIS

German Iris

These are among the most delicately beautiful of the hardy perennials. They thrive in almost any soil or situation except that they cannot endure standing water. They may be planted in early Spring, but best results are obtained by planting in August and September.

In the following descriptions, S is for standards, or upper petals, and F for falls, or lower petals.

AGNES—S. White, frilled and shaded lilac; F. White, traced lilac. 2 ft., Each, 25c
ALCAZAR—S. Light bluish violet; F. Deep purple, veined bronze at the throat. A very handsome variety. Each, 50c
AUREA—Clear lemon yellow, self. Each, 25c
CAPRICE—S. Rosy red; F. Rosy red with yellow beard. Very beautiful. 2 ft., Each, 25c
FLAVESCENS—S. and F. Delicate soft yellow. Large, sweet scented. Early. 30 in., Each, 25c
FLORENTINA ALBA—Creamy white, fragrant. Early. 2 ft., Each, 25c
GERTRUDE—S. and F. Beautiful blue. Early. Each, 25c
HER MAJESTY—S. Lovely rose pink; F. Bright crimson, shaded darker. Very handsome. Each, 25c

HONORABILIS (Syn. Sans Souci)—S. Golden yellow; F. Rich mahogany. 18 in., Each, 25c
INNOCENZA—Ivory white. 18 in., Each, 25c
IRIS KING—S. Clear lemon yellow; F. Rich maroon, bordered yellow. Maori King X Pallida. Large and beautiful. Each, 25c
ISOLENE—S. Silvery lilac; F. Mauve with orange beard. Large and beautiful form. Each, 50c
KHEDIVE—Soft lavender. 33 in., Each, 25c
LOHENGRIN—Uniform soft shade of Cattleya rose. Very large. Each, 35c
LORELEY—S. Light yellow; F. Ultramarine blue, bordered cream. Each, 25c
MAD. CHEREAU—White, elegantly frilled, clear blue. Very handsome. 32 in., Each, 25c
MAD. PAQUETTE—Bright rosy claret. The best "red." 42 in., Each, 25c
MARY GARDEN—S. Pale yellow, flushed pale lavender; F. Creamy white, dotted and veined maroon. 2 ft., Each 35c

MRS. H. DARWIN—Pure white, falls slightly reticulated violet at base. One of the best whites. 2 ft., Each, 25c
NIEBELUNGEN—S. Fawn yellow; F. Violet purple suffused creamy white. New. Each, 35c

PALLIDA DALMATICA—S. Lavender; F. deep lavender. A superb variety. 40 in., Each, 25c
PFAUENAGE—S. Olive gold; F. Plum color with gold border. Very beautiful. New. 15 in., Each, 35c
PLUMERI—S. Coppery rose; F. Velvety claret. Each, 25c
PROSPER LAUGIER—S. Light bronze red; F. Velvety ruby-purple. Each, 50c
QUAKER LADY—S. Smoky lavender, shaded yellow; F. Aegean blue and gold, yellow beard. 38 in., Each, 50c
QUEEN OF MAY—Soft rose lilac, almost pink. 32 in., Each, 25c

RED CLOUD—S. Rosy bronze; F. Crimson maroon. Very striking. Each, 35c
RHEIN NIXE—S. Pure white; F. Deep violet blue, edged white. Very attractive. New. Each, 35c
ROSE UNIQUE—Bright violet rose. Said to be the nearest approach to a pink Iris. Each, 35c
SEMINOLE—S. Violet; F. Crimson. Large and attractive. 2 ft., Each, $1.00
SHERWIN WRIGHT—Golden yellow, self. Very free flowering. Each, 35c
STANDARD BEARER—Soft rosy mauve. Very large. Each, 35c
STENOXYLLA—S. Pale lilac; F. Violet. Each, 25c

VIOLACEA GRANDIFLORA—S. Rich blue; F. Violet blue. Large and handsome. Each, 25c
Intermediate Iris

Handsome new hybrids blooming between the dwarf Pumilla and later blooming German Iris. They are all large flowering.

HALFDAN—Creamy white. Each, 25c
HELGE—Lemon yellow, shaded pearl. Each, 25c
IVORINE—Large creamy white. Each, 25c

Iris Special

One each of the following ten choice varieties for $3.00 prepaid, two each, twenty in all, for $5.50

Alcazar
Flavescens
Her Majesty
Isoline
Kochi

Mad. Chereau
Quaker Lady
Rhein Nixe
Sherwin Wright
Violacea Grandiflora

Iris Pumilla

These are very dwarf, and blossom early before the taller varieties. They are excellent for borders or the rockery.

BRIDE—Very large white.
FORMOSA—S. Deep blue; F. Dark purple.
LUTEA—Golden yellow.
Above three varieties, 35c each; two of each for $1.75; $3.50 per dozen

Iris Kaempferi—Japanese Iris

These are magnificent and where they succeed surpass everything. They require well enriched soil and plenty of moisture during the Summer, but standing water should be avoided. The flowers are very large and their delicate colorings are very difficult to describe. They bloom in July after the German Iris. The collection we offer are the best selection from a large collection. They are true to name and free from mixture. Order by number.

1. BANDAI-NO-NAMI—Fine large white. Six petals.
5. Large reddish purple. Six petals. Very attractive. Each, 50c
15. USHIO-NO-KOMURI — Delicate blue, shaded darker. Six petals.
47. Large, dark violet. Six petals.
65. Light blue. Six petals. Each, 50c
67. White, shaded light blue. Three petals. Each, 50c
69. Very handsome white. Three petals. Each, 50c
Japanese Iris, except where noted, 35c each; $3.50 per dozen

Iris Siberica

These have long, narrow foliage with tall stems of medium-sized flowers. They bloom very freely and are excellent for cut flowers.
HARDY PHLOX

For brilliant masses of color in the landscape or hardy border, the hardy Phlox ranks supreme. They bloom from July on, at a time when other flowers in the border are comparatively scarce. A very wide range of colors is possible. During the past few years, some wonderful new varieties have been produced. These have larger panicles of flowers with much larger flowers, and present some new and very brilliant colors.

They may be planted any time in Fall or early Spring. The soil should be well prepared and made very rich for best results. Plant 12 to 15 inches apart and water thoroughly during periods of dry weather. The clumps ought to be divided and replanted in fresh soil at least once in three years.

The following varieties have been carefully selected and represent some of the best in cultivation.

GENERAL VAN HEUTZ—Brilliant salmon red, with white eye. Each, 35c
GEO. A. STROHLEIN—Brilliant orange scarlet, carmine eye. Extra large flower and truss. Tall. Each, 50c
KATHLEEN—Deep salmon pink, with darker center. Individual florets very large; new. Each, 50c
LA SOLEIL—Light rose, shaded lighter toward the center. Each, 50c
LA VAGUE—Pure mauve, dark eye.
LE MAHDI—Dark bluish violet, extra fine. Each, 50c
MISS LINGARD—An early flowering variety. White, with a faint lilac eye.
MME. P. LANGIER—Brilliant pure crimson. Extra good. Each, 50c
MRS. JENKINS—Pure white. Early.
PANTHEON—Salmon rose. Very large florets. Good pink variety.
RHINELANDER—Handsome salmon pink, large truss and individual florets. Medium dwarf.
RICHARD WALLACE—Pure white, with dark eye.
R. P. STRUTHERS—Bright rosy red, crimson eye. The best of its color.
RIJNSTROM—Beautiful clear pink. Large flower and truss.
TAPIS BLANC—Very large, white florets. Panicles are very large and plant very dwarf. Each, 35c
THOR—Deep salmon pink, overlaid scarlet, darker eye. Each, 35c
VON HOCKBURG—Dark crimson. One of the finest. Each, 35c
W. C. EGAN—Beautiful soft rose. Florets extremely large. Medium. Each, 35c
WIDAR—Attractive violet blue, with a pure white eye. Each, 35c

Any of the above except as noted, 25c each; $2.75 per dozen, prepaid; 25 of a variety for $5.00

Strong, field-grown plants

Special Collection of Phlox

The following ten varieties prepaid for $2.50

Two collections, two of each, for $4.75

B. Compte
Frau Antoine Buchner
La Vague
Miss Lingard
Panthéon
Rhinelander
Richard Wallace
Rijnstrom
Von Hockburg
Widar
HARDY PLANTS

The following list embraces the most desirable varieties of hardy perennial plants, suitable for the garden, hardy border or the rockery. They are of easy culture and include many of the handsomest flowers in cultivation. Those particularly well adapted for the rockery are indicated by an *.

Strong, field grown plants, unless noted, 25c each; $2.50 per dozen prepaid. Write for price on larger quantity.

ACHILLEA

ACHILLEA MILLEFOLIUM ROSEUM—Finely cut foliage. Dense heads of pink flowers all Summer. 18 in., Each, 30c

ACHILLEA, THE PEARL—Small, double white flowers in July. 1 ft.

ACHILLEA TOMENTOSA—Bright yellow flowers in July. 8 in.

ACONITUM FISHERII — Glossy, deep green foliage. Hooded, deep blue flowers in Fall. Good cut flower. 18 in., Each, 35c

ACONITUM ITALICA (Dropmore Variety)—A rank growing plant, 5 to 6 ft. high, covered with bright blue flowers in Summer. Each, 33c

ANCHUSA ITALICA (Dropmore Variety)—A rank growing plant, 5 to 6 ft. high, covered with bright blue flowers in Summer. Each, 33c

ANCHUSA QUEEN CHARLOTTE — Large, semi-double, silvery pink.

Each, 50c; Doz., $5.00

ANNEMONE, QUEEN CHARLOTTE — Large, semi-double, silvery pink.

Each, 50c; Doz., $5.00

ANTHEMIS TINCTORIA (Hardy Marguerite) — Clear yellow, daisy-like flowers in July. Grows in poor soil.

AQUILEGIA COERULEA (Rocky Mountain Columbine)—White, with blue corolla. Long spurred. Each, 35c

AQUILEGIA CHRYSANTHA—Golden yellow, long spurred.

MRS. SCOTT ELLIOTT—Long spurred hybrids. The finest mixture.

ARABIS ALPINA—Completely covers itself with pure white flowers in early Spring. 6 in.

ARTESMIA LACTIFLORA—Heads of small white, very fragrant flowers in August.

3 ft., Each, 35c

ASPHEDELLUS LUTEUS (King’s Spear) — Bright yellow, lily-like flowers in early Spring. Very fragrant, foliage narrow. 2 ft., Each 35c

ASTER ALPINUS (Alpine Aster)—Bluish purple flowers on five-inch stems. Forms fine clusters of ground leaves. An excellent rock or edging plant.

ASTERS (Michelmas Daisies)—

FELTHAM BLUE—Large, clear blue. 4 ft.

ST. EGWIN—Clear rose pink, good habit. 3½ ft.

MRS. F. W. RAYNOR—The nearest red of any hardy Aster. Scarce. Each, 35c
CASSIA MARYLANDICA—Finely divided foliage, numerous racemes of bright yellow flowers in July. 3 ft.

CENTAUREA MACROCEPHALA—Thistle-like golden yellow flowers in July. 3 ft.

CENTAUREA MONTANA (Perennial Cornflower)—Large blue flowers in August. 2 ft.

CERASTIUM TOMENTOSUM—A trailing plant with silvery white foliage and white flowers in abundance.

CHRYSANTHEMUM HARDY—Indispensable for late Fall bloom. Should be given rich culture and a sheltered position fully exposed to the sun for best results. We have found the following quite satisfactory in our climate.

AUTUMN GLOW—Deep pink.

EXCELSIOR—Large, yellow.

INDIAN—Red, shaded bronze.

LUCIFER—Dark purplish red.

MARIE ANTOINETTE—Attractive rose color.

NORMANDIE—A very good pink variety.

OLD HOMESTEAD—Dark red.

WHITE FLORA—Large pure white.

Above varieties 35c each; $3.50 per dozen

One each of the above eight Chrysanthemums, strong, field-grown plants, for $2.50 prepaid.

Baptisia Australis (False Indigo)—Deep blue, pea-shaped flowers in spikes. Attractive foliage. 2 ft.

*BELLIS PERENNIS (English Daisy)—SNOWBALL—Double white. Each, 20c

LONGFELLOW—Double pink. Each, 20c

BOCCONIA CORDATA (Plume Poppy)—Attractive glaucous foliage. Masses of creamy white flowers in panicles in July and August. 6 ft.

BOLTONIA ASTEROIDES—Pure white, single aster-like flowers. Very free. 4 ft.

BUDDLEIA (Butterfly Bush or Summer Lilac)—Long panicles of lilac colored flowers. Very fragrant. Each, 40c

*CAMPANULA CARPATICA (Carpathian Harebell)—A dwarf species producing blue bell-shaped flowers all Summer. 8 in.

CAMPANULA MEDIUM (Canterbury Bells)—Large, cup-shaped flowers, blue, rose or white and mixed.

CAMPANULA PERSICIFOLIA (Peach Bells)—Handsome spikes of flowers in July and August. Blue or white. 2 ft.

CAMPANULA PYRAMIDALIS (Chimney Bellflower)—Salver-shaped, blue flowers, freely produced in September. 4 ft.

CARYOPTERIS MASTACANTHUS (Blue Spirea)—Rich lavender blue flowers in Spirea-like clusters in September. Freezes to ground but comes up from root. 3 ft., Each, 50c

NURSERY STOCK OF THE FINEST QUALITY
HARDY PLANTS—Continued

CIMIFUGA RACEMOSA—Pure white flowers on long, slender spikes. Each, 50c

CLEMATIS DAVIDIANA—Deep lavender blue flowers in clusters in August. Very fragrant. Foliage attractive. 3 ft. Each, 50c

CONVALLARIA (Lily of the Valley)—Well known.

COREOPSIS LANCEOLATA GRANDIFLORA—Rich golden yellow flowers nearly all Summer.

DELPHINIUM BELLADONNA HYBRIDS—Clear turquoise blue flowers. Strong, field-grown roots.

DICENTRASPECTABILIS

DELPHINIUM CHINENSE ALBA — A dwarf species producing spikes of white flowers. 18 in.

DELPHINIUM CHINENSE BLUE—Brilliant, deep blue flowers all Summer. Dwarf.

DELPHINIUM FRENCH HYBRIDS—Grown from the seed of a large collection of named varieties. A wide range of colors in shades of blue. Double and large flowering varieties.

   Each, 50c; Doz. $5.00

DIANTHUS BARBATUS (Sweet William) — Single. All colors mixed.

DIANTHUS CARYOPHYLLUS (Hardy Carnation)—Double, fragrant flowers all Summer. Excellent for any purpose.

*DIANTHUS LATIFOLIUS—Bright crimson, double flowers, continuous bloomer.

*DIANTHUS PLUMARIUS — Hardy garden pinks. The old-fashioned fragrant variety. June.

DICENTRA, SPECTABILIS (Bleeding Heart)—Long racemes of graceful, pink, heart-shaped flowers.

   Each, 75c
FOXGLOVE

HARDY PLANTS—Continued

DICTAMNUS FRAXINELLA (Gas Plant)—Rose, pink or white. 3 ft. One of the longest lived plants. The flowers give off a volatile oil which will sometimes ignite if lighted with a match. Each, 50c

DIGITALIS (Foxglove)—Stately plants bearing long spikes of tubular flowers in July and August. 2 to 3 ft.

DIGITALIS NEW SHIRLEY HYBRIDS—Taller and larger than the older varieties, also longer lived. New. Each, 35c

DORONICUM CAUCASICUM (Leopard-Bane)—Large, bright yellow, daisy-like flowers in early Spring. Excellent for cutting. Scarc e. Each, 50c

ECHINOPS RITRO (Globe Thistle)—Thistle-like foliage and globular heads of metallic blue flowers which remain attractive for a long time when dried. 2 ft.

ERYNGIUM AMETHYSTINUM (Blue Thistle)—Steel blue.

*EPIMEDIUM MACRANTHUM ROSEUM (Bishop's Hat) — Attractive, persistent foliage. Peculiar rosy red flowers. Fine for rockeries. Each, 35c

EUPHORBIA COROLATTA—A branching, low-growing plant, completely covered with small white flowers in Summer. Very desirable for cutting.

FUNKIA (Plantain Day Lily)—Handsome broad foliage and fragrant lily-like flowers in late Summer. 1 ft.

* GYPSOPHILA PANICULATA (Baby's Breath)—Mist-like sprays of minute white flowers. Fine for bouquets.

*GYP SOPHILA REPENS—A trailing variety producing clouds of small white flowers in July.

HELENIUM RIVERTON GEM—Old gold, changing to red. A very beautiful plant. Each, 35c

HEMEROCALIS FLAVA (Lemon Day Lily)—Fragrant, golden yellow flowers in large clusters. 2 ft.

Hardy Perennials
[OLD-FASHIONED FLOWERS]

From a garden of Hardy Perennials comes the brightness and cheer of flowers upon the lawn and the boundless satisfaction of bouquets of your own picking for indoors decoration or as gifts to friends.

The plans illustrated opposite point the way to plant a Perennial Garden.
EASY-TO-MAKE
PERENNIAL GARDENS

THE planting of a perennial garden is very simple; once planted these perennials bloom gaily year after year, prospering with little or no attention. Radiant in their bright color combinations, fascinating in form and detail, we suggest common-sense perennial beds that anyone can easily follow, either as a single bed or a combination as shown in the smaller illustration.

The number of perennials under each offer covers the required number for a single perennial bed—if additional beds are required, two, three or four, order additional offers.

HARDY PLANTS—Continued

HEMEROCAI S THUNBERGI—Resembles Flava but blossoms a month later and has the upper end of the flowering stem flattened.

HEUCHERA BRIZOIDES (Coralbells)—Color not so deep as Sanguinea, but stronger in growth and more productive. Each, 35c

HEUCHERA SANGUINEA—Makes a tuft of heart-shaped glossy green leaves, from which the flowering stems rise a foot or more in height. Flowers small, bright red. Each, 35c

HISPERIS MATRONALIS (Sweet Rockets) — Fragrant, rosy lilac flowers.

HIBISCUS—New Giant flowering Marshmallow, or Mallow Marvels. Flowers sometimes 9 in. in diameter. Very hardy. 5 to 8 ft. Separate colors, red, pink and white.

HOLLYHOCKS—Too well known to require description. Double. Red, white, rose, yellow.

HYACINTHUS CANDICANS—A bulbous plant, sending up stalks three feet high, loaded with pendent, creamy white flowers. Blooms continuously all Summer. 3 ft., Doz., $2.00

IBERIS SEMPERVIRENS—White flowers in large heads in May. Attractive evergreen foliage. 10 in., Each, 35c

LATHYRUS LATIFOLIUS—See vines and creepers below.

LAVANDULA VERA (Sweet Lavender)—Fragrant, blue flowers in July and August. 1 1/2 ft.

LEONTOPOD IUM ALPINUM (Edelweiss)—White, woolly foliage and heads of small, yellow flowers in June. A first-class rock plant.

4 in., Each, 50c

LIATRIS PYCNOSTACHYA (Kansas Gay Feather)—Flowers purple, in dense spikes, 4 to 5 ft. high. Thick, grass-like foliage. Very choice. Each, 35c

LILLIUMS—No garden is complete without Lilies. Many of the most beautiful varieties are very easy to manage if a few cultural directions are observed. The varieties offered below thrive best in a partially shaded position, except that Candidum requires full sun. Perfect drainage is essential. Plant the bulbs 6 to 8 inches deep. They should be mulched during the Winter, otherwise frost might destroy the bulbs in the ground.

Fall planting is usually recommended. However, some of the Japanese varieties do not arrive from foreign sources before the ground freezes and are successfully planted out in early Spring. A few other varieties can also be successfully planted out in Spring. We offer only a few of the best and more easily grown varieties.

AURATUM (Gold Banded Lily of Japan)—The most popular garden Lily grown. Flowers 8 to 10 inches wide; white spotted purple and gold band through the center of each petal. Fifteen or more fragrant flowers to a plant. Has the longest blooming period of any Lily, August. Large bulbs. Each, 50c

BATEMANI—Reddish orange. 2 ft. August. Each, 50c
HARDY PLANTS—Continued

CANDIDUM (Madonna or St. Joseph's Lily)—Pure white, fragrant flowers in June. Easy to grow. Should be planted in Fall. Each, 35c

ELEGANS (Orange)—Orange colored blossoms in June. Healthy grower. 1½ ft. Each, 25c

ELEGANS UMBELLATUM—Scarlet. Each, 25c

REGALE (The Regal Lily)—Spikes of medium height, bearing several large, fragrant blooms on a stem. White with yellow center, shaded rose on outside of petals. Early July. One of the very best hardy Lilies. Each, 75c

SPECIOSUM ALBUM—Speciosum Lilies are the most easily grown of the Japanese Lilies. This is the white variety. August. Each, 50c

SPECIOSUM MELPOMENE—Red, with crimson markings. Very attractive color. Large bulbs. Each, 50c

SPECIOSUM RUBRUM—Red on white ground. Large bulbs. Each, 50c

TENUIFOLIUM (Coral Lily)—Bright scarlet. 1 to 2 ft. Very narrow foliage. Very charming. Each, 50c

LILIUM TIGRINUM SPLENDENS (Tiger Lily)—Orange, spotted black. Each, 35c

Twelve Lily Bulbs of a kind will be sent for ten times the price of one.

*LINUM PERENNNE (Flax)—Produces masses of small azure blue flowers in July and August. 18 in.

LOBELIA CARDINALIS—Spikes of intense scarlet flowers. 4 ft. Very brilliant.

LUPINUS (Lupine)—Long spikes of pea-shaped flowers on long stems. Attractive colors, blue, rose or white. 3 ft.

LYCHNI CHALCEDONICA—Bright scarlet flowers in heads. Has a long blooming period.

LYSIMACHIA CLETHROIDES (Loosestrife)—Long, recurved spikes of pure white flowers during late Summer. 2 ft. Each, 35c

LYTHRUM ROSEUM (Loosestrife)—Produces long spikes of rose-colored flowers from July to September. 4 ft.

MONARDABA DIDIYMA (Cambridge Scarlet)—Heads of brilliant scarlet flowers in July and August. 3 ft.

MONTBRETTA—A bulbous plant, throwing numerous spikes of flowers, yellow through orange to red. Hardy with protection.

CROCUSMIFLORA—Orange yellow, tinted red. Doz., $1.00

*MYOSOTIS PALUSTRIS (Forget-Me-Not)—A dwarf plant producing small, dark blue flowers in profusion.

OENOTHERA MISOURIENSIS (Evening Primrose)—Large, golden yellow flowers in June. Profuse bloomer. 10 in.

PACHYSANDRA TERMINA LIS (Japan Spurge)—An evergreen trailing plant, growing about 8 in. high. Will grow in dense shade under evergreens or in the open. Plant four inches apart. Special prices for large quantity.

PAPAYER NUDICALE (Iceland Poppy)—Forms a tuft of neat fern-like foliage from which are produced several slender stems crowned with the attractive cup-shaped flowers. Orange, yellow or white. Each, 35c

PAPAYER ORIENTALE (Oriental Poppies)—Mixed hybrids. Scarlet shades. Large and showy. Each, 35c

MAHONY—Very dark purple. Each, 50c

MRS. PERRY—A distinct shade of orange-apricot. Each, 50c

PERRY’S WHITE—Pure satiny white, dark blotches at base of petals. Each, 50c

PRINCESS VICTORIA LOUISE—Soft salmon rose. Each, 50c

QUEEN ALEXANDRIA—Clear rose-salmon. Each, 50c

PENTSTEMON BARBATUS TORREYI (Beard Tongue)—Bright scarlet flowers on tall spikes all Summer.

*PHLOX SUBLATA (Moss Pink)—A dwarf variety having evergreen moss-like foliage, completely covered with flowers in early Spring. Rose or white.

PHYSALIS FRANCHETI (Chinese Lantern Plant)—Very large orange red fruits, suitable for Winter decorations.

PHYSOSTEGIA (False Dragonhead)—
VIRGINICA—Spikes of delicate pink tubular flowers. 3 to 4 ft. high.

VIRGINICA ALBA—A pure white form.

*PLATYCODON (Bell Flower)—Large bell-shaped flowers. August to September. Blue or white.
HARDY PLANTS—Continued

*PLUMBAGO LARPENTAE (Leadwort)—Deep blue; late Summer. Attractive foliage of dwarf, spreading habit. Excellent for the border or rockery. 6 in.

*POLEMONIUM REPTANS—Blue. Has very attractive, fern-like foliage. 8 in.

*POTENTILLA (Cinquefoil)—Dull reddish purple and scarlet blossoms are freely produced. A very attractive dwarf plant. 1 ft.

*PYRETHRUM ROSEUM—Finely cut foliage and daisy-like flowers on long stems, early in the season. Mixed colors.

*PRIMULA POLyanthus—A choice border plant. Assorted colors.

*RAUNUCULUS REPENS Fl. Pl. (Double Buttercup)—Bright golden yellow flowers in profusion. Low, spreading growth. 10 in. May.

*RUDEBEKIA, GOLDEN GLOW—Golden yellow, produced in profusion. 6 ft.

*RUDEBEKIA-NEWMAN—I sing, daisy-like flowers, orange yellow with brown cone. 2 ft.

*RUDEBEKIA-PURPUREA—Large reddish purple flowers, with prominent dark cone.

*Salvia Azurea Grandiflora (Meadow Sage)—Pretty spikes of pale blue flowers in August and September. Profuse bloomer. 3 ft.

*Santolina Incana (Lavender Cotton)—Flowers not valuable. One of the best dwarf evergreen plants in cultivation. Foliage silvery white; aromatic. 1 ft.

*Saxifraga Cordifolia—Pink flowers. Very early in Spring. Handsome broad, deep green foliage which is always attractive. 1 ft., Each, 50c

SCABIOSA CAUCASICA (Blue Bonnet)—Soft, clear lavender-blue flowers all Summer. 2 ft., Each, 35c

Sedum Stonecrop—
*ACRE (Golden Moss)—Flowers bright yellow, foliage green. Excellent ground cover. Very dwarf.

*SEXANGULARE—Flowers yellow, foliage succulent green. 4 in.

*SPURIUM COCINEUM—Rosy crimson, handsome foliage. 4 in.

Sedum Spectabile—The best Sedum, large heads of pink flowers. August.

*SEMPERVIVUM (House Leek)—

ARACHNOIDEUM—Forms a rosette of thick leaves connected by silvery threads. Bright red.

FIMBRIATUM—Leaves tipped with a tuft of hairs. Bright red.

TECTORUM—Broad leaves, tipped brown. Light red.

SHASTA DAISY—Large, snow white flowers throughout the Fall. Splendid for cutting.

SPIREA GRANDIS ROSEA MAXIMA—Creamy white flowers on drooping stem. Spikes 2 ft. long. 5 ft. A beautiful plant. Each, 50c

SPIREA FILIPENDULA Fl. Pl. —Clusters of double white flowers in June and July. Handsome evergreen fern-like foliage. A very choice hardy plant. 12 in., Each, 50c

SPIREA JAPONICA (Queen Alexandra)—Soft, delicate pink, feathery plumes. Each, 50c

SPIREA Japonica (Gladstone)—Similar to the above but pure white. Each, 50c

SPIREA PALMATA ELEGANS (Meadow Sweet)—Light pink flowers in handsome plumes. 3 ft.

SPIREA ULMARIA Fl. Pl.—Similar to the preceding but has double, creamy white flowers. Fine for cutting. Each, 35c

*STACHYS LANATA (Woundwort)—An excellent edging plant. Soft, silvery foliage. 4 in.

*STATICE LATIFOLIA (Sea Lavender)—Small, lavender blue flowers in immense heads, useful for dried bouquets. Foliage bright green, thick and leathery. ½ ft.

STOKESIA CYANEA (Cornflower Aster)—Light blue, Centaurea-like blossoms throughout the late Summer.

TRADESCANTIA VIRGINICA (Spiderwort)—Blue flowers. A free and continuous bloomer. 2 ft.

TRITOMA, PFITZERI (Red Hot Poker)—Long spikes of orange scarlet flowers, continuously from August to November. Very ornamental. 3 ft., Each, 35c

*TUNICA SAXIFRAGA—A handsome dwarf tufted plant, bearing a profusion of small pink flowers through late Summer. Good for edging or rockery.

VALERIANA OFFICINALIS (Hardy Garden Heliotrope)—Showy heads of lavender white flowers. June. Deliciously fragrant. 3 ft., Each, 35c

*VERONICA AMETHYSTINA—Amethyst blue. Trailing habit. 10 in. June. Each, 35c

Viola Cornuta
Roses
Queen of all Flowers

HARDY ROSES

THIS year we are offering a few of the very best and most popular garden roses to our patrons. The list we offer has been very carefully selected and contains only those varieties which are hardy and free bloomers.

Roses are best planted in the Spring as soon as the ground is dry enough to work. The ground should be thoroughly and deeply prepared with a heavy application of well rotted manure, that from the cow stable being the best. A heavy, well drained loam soil suits them best. Set the plants at least two feet apart. If on their own roots, plant a little deeper than they stood in the nursery row, budded plants should be planted with the union of the bud and stock about two inches below the surface of the soil. Immediately after planting thin them out to three or four shoots and cut these back to within four inches of the ground. During the growing season keep the surface soil loose with the hoe and water occasionally during extended droughts. A top dressing of bone meal at intervals during the Summer will be found very beneficial.
Select Hardy Everblooming Hybrid Tea Roses

COLUMBIA—A most pleasing shade of rose pink. Sweetly perfumed. Good size, perfectly formed bud.

GORGEOUS—Amber yellow, veined reddish copper. Large and full. Good habit.

GRUSS AN TEPLITZ—Rich scarlet, shaded crimson. Very fragrant. One of the very best garden roses.

HADLEY—Rich crimson with deeper shades. Intensely fragrant and a continuous bloomer. The best red rose for the garden.

JULIET—Inside of petals rich rosy red, outside old gold. Large and very full. A handsome flower.

LOS ANGELES—Luminous flame pink, shaded coral and translucent gold at base of petals. Buds are long and pointed and flowers very large. Sweetly fragrant. Strong, healthy grower. One of the finest garden roses.

Each, $1.00

Mrs. Aaron Ward—Indian yellow, shaded lighter toward the edges of the petals. Splendid form and a free bloomer. Very satisfactory.

OPHELIA—Delicate salmon-flesh shaded rose. The large buds, perfect in form, are freely produced. One of the best.

RadiancE—Brilliant carmine pink, shaded salmon and yellow at base of petals. Large and free.

Sunburst—Rich yellow, shaded coppery orange. Long pointed bud and a free bloomer.

Souvenir de Georges Pernet—Intense oriental red, shaded cochineal and suffused yellow. Large, beautiful bud. Free bloomer.

Each, $1.00

Above Roses first-class, field-grown plants. Each, 75c; $8.00 per dozen as noted.

Special

One each of the above sixteen hybrid tea roses sent prepaid for $11.75.

Six Popular Hybrid Perpetual Roses

Frau Karl Druschki—Pure white, perfect form, free bloomer. The best hardy white rose.

Hugh Dickson—Intense crimson, shaded scarlet. Fragrant, large and full.

Prince Camille de Rohan—Dark crimson maroon, shaded scarlet. The best very dark rose.

Above six Roses, each, 75c; dozen, $8.00; 6 of a variety at dozen rate.

Special—One each of the above six Roses for $4.00
Dwarf or Baby Roses

BABY RAMBLER—Rosy crimson. Very free. Makes a fine hedge. Each, $1.00

BABY DOROTHY—Similar to the above but of a deep pink color. Each, $1.00

CECIL BRUNNER—Soft rosy pink on a creamy white ground. Small, long pointed buds of perfect form. Also called "Sweetheart Rose." Each, $1.00

SPECIAL—One each of the above three Roses for $2.50

Hardy Climbing and Rambler Roses

CLIMBING AMERICAN BEAUTY—A rich deep rose pink of good form. Strong grower and free bloomer. Each, 75c

DOROTHY PERKINS—Soft pink. Blooms profusely in large clusters. The best pink rambler. Each, 50c

EXCELSA—Deep crimson. Similar to Dorothy Perkins in foliage and habit of growth. Does not fade. Each, 50c

PAUL'S SCARLET CLIMBER—Bright scarlet, shaded crimson. Semi-double flowers in large clusters. Does not fade; new. Each, 75c

SILVER MOON—Pure white. Semi-double flowers over four inches in diameter. Each, 75c

SOURCE D'OR—Large, double yellow flowers. The best hardy yellow climbing rose. Each, 75c

c

HARDY VINES

AMPELOPSIS VEITCHI (Boston Ivy)—The best vine for covering stone or brick work, to which it clings tenaciously. Each, 75c

ARISTOLCHIA SIPHO (Dutchman's Pipe) — Large, broad, light green leaves. A rapid grower and justly popular. Each, $1.00

CELASTRUS SCANDENS (Bitter Sweet)—A native vine; yellow flowers, followed by orange colored fruit which remains on the plant during Winter. Will thrive in shade. Each, 50c

CLEMATIS PANICULATA — Fragrant, white flowers in August, beautiful foliage and a rapid, vigorous grower. Each, 50c

CLEMATIS JACKMANNI — Large, deep purple flowers. Very strong. Each, $1.00

EUONYMUS RADICANS VEGETUS—Large, glossy deep green foliage, evergreen and hardy. Produces orange red berries which remain on plant nearly all Winter. One of the best evergreen trailers for our climate. 2 yr., Each, 50c

LATHYRUS (Everlasting Pea)—A hardy herbaceous plant, producing clusters of rose-colored, pea-shaped blossoms. Each, 35c

POLYGONIUM AUBERTI (Silver Lace Vine)— A strong growing vine, attains a height of 25 ft. Throughout the Summer and Fall it is completely covered with foamy sprays of white flowers. A very desirable vine not as well known as it should be. Each, $1.00

WISTERIA CHINESE PURPLE—Produces large masses of blue flowers in May. A vigorous grower and very desirable. Each, $1.00
Hardy Shrubs and Hedge Plants

A FOUNDATION PLANTING OF SPIREA VAN HOUTTEI AND DEUTZIA GRACILIS
This Planting Can be Duplicated, Consisting of 15 Spirea Van Houttei and 15 Deutzia Gracilis, for $10.00.

During April and May we can supply strong, healthy, young plants of the popular varieties of ornamental and flowering shrubs. Let us quote on your requirements.

We will gladly quote special prices where plants are required in large quantity for extensive plantings.

ALTHEA (Rose of Sharon)—A tall, upright shrub, flowering late in season. Double, pink, red or white. 2-3 ft., Each, 50c

BARBERRY THUNBERGI (Japanese Barberry)—A dense, hardy, low growing shrub having small leaves and thorny branches. Leaves turn brilliant orange red in Autumn. Bright red berries remain on the plants all Winter. Excellent for low hedges or base plantings.

12-18 in. hardy, Double 2-3 ft., Each, 75c

DEUTZIA GRACILIS—A dwarf, slender branched shrub. Showy white flowers in long racemes.

12-18 in., Each, 75c

DEUTZIA SCABRA (Pride of Rochester)—Of stronger growth than the above. Pink buds and double white flowers. 2-3 ft., Each, 50c

FORSYTHIA SUSPENSA FORTUNEI—Golden yellow flowers very early in Spring before the leaves appear. One of the first shrubs to blossom.

2-3 ft., Each, 75c

HYDRANGEA ARBORESCENS GRANDIFLORA (Snowball Hydrangea)—Snow white clusters of flowers in Mid-summer. Very showy.

2-3 ft., Each, $1.00

HYDRANGEA PANICULATA GRANDIFLORA—The best hardy hydrangea. Large clusters of white flowers in August. These change to pink and remain on the plant until Winter.

2-3 ft., Each, $1.00

LIGUSTRUM OVALIFOLIUM (California Privet)—One of the best hedge plants. Excellent habit. Persistent dark green, glossy foliage.

1-1½ ft., 100, $5.00

PHILADELPHUS CORONARIUS (Mock Orange)—A tall growing shrub. Flowers pure white and very fragrant.

2-3 ft., Each, 50c

PHILADELPHUS AUREA (Golden Syringa)—Not so tall as the above. Attractive golden yellow foliage.

15-18 in., Each, 75c

RUS COTINUS (Smoke Tree or Purple Fringe)—Purple fringe-like blossoms resembling a cloud of smoke. Makes a very dignified and attractive specimen.

2-3 ft., Each, $1.50

RUS GLABRA LACINATA—Long, deeply cut leaves resembling ferns. Upright habit.

2-3 ft., Each, 75c

SPIREA ANTHONY WATERER—Bright crimson flowers. Rather dwarf.

1½-2 ft., Each, 50c

SPIREA PRUNIFOLIA (Bridal Wreath)—Double pure white flowers in profusion. One of the best flowering shrubs.

2-3 ft., Each, 50c

ROSE OF SHARON—Althea
Hardy Shrubs and Hedge Plants—Continued

VIBURNUM OPULUS STERILE
Common Snowball

VIBURNUM OPULUS STERILE (Common Snowball)—Globular clusters of white flowers in May. 2-3 ft., Each, 75c

VIBURNUM Plicatum (Japan Snowball)—White flowers in globular clusters. Attractive, deeply veined foliage. 2-3 ft., Each, $1.00

BARBERRY THUNBERGII
Makes a Lovely Informal, Low-growing Hedge. Extremely Hardy, Does Not Need Shearing

WEIGELIA EVA RATHKE — Brilliant crimson flowers. Habit rather dwarf. Makes a very ornamental specimen. 2-3 ft., Each, $1.00

WEIGELIA ROSEA — Rose colored flowers in May. Taller than the above. 2-3 ft., Each, 50c

Collection No. 291

1 Hydrangea, 2-3 ft.
1 Deutzia Pride of Rochester, 2-3 ft.
1 Weigelia Rosea, 2-3 ft.
1 Syringa Mock Orange, 2-3 ft.

All for $3.00
CANNAS

THESE are among the most attractive bedding plants in cultivation. They have large, attractive foliage varying in color from a clear deep green to a rich bronzey red. The modern varieties are not so tall as the older ones but surpass them in size of bloom and brilliancy of coloring.

The roots should be placed in a box of moist moss or sand two or three weeks before planting out and kept in a warm place to start the sprouts and new roots. They should be planted about three inches deep and eighteen inches apart, with the taller varieties in the background. They flourish in rich soil and should be given plenty of moisture, and frequently hoed during the growing season. When the foliage has been killed by frost, it may be cut off and the roots dug and stored in a warm, dry place until the following Spring. The clumps should then be divided before replanting.

The following varieties are large flowering and have excellent foliage. We consider them the best in cultivation. We will gladly suggest varieties and tell you the number of plants required for your needs.

FLORIDA—4½ ft. Bronze foliage. Beautiful orange red. One of the best. Each, 50c  
KING MIDAS—4 ft., Green foliage. The very best yellow canna. Each, 50c  
MRS. ALFRED CONARD—4 ft. Green foliage. Salmon pink. The best of this color.  
MRS. WOODROW WILSON—3½ ft. Green foliage. Large rose pink blossoms. Extra choice. Each, 50c  

Except as noted, strong roots of any of the above Cannas, each, 25c; dozen, $2.50. Special, 100, $10.00. We will gladly quote special prices on large orders for bedding purposes.

Cannas Special

A bed eight feet in diameter will require 16 dwarf plants for the outer row and 8 taller ones for the center. For such a bed I would suggest 16 The President for the outer row and 8 Florida for the center; or 16 Mrs. Woodrow Wilson for the outer row, with 8 King Humbert for the center. We will send 24 roots, either collection, prepaid for $4.75.
